

4th Grade Weekly Newsletter

Fourth Grade Achievers

October 5th-9th

Week 7

What We Are Learning

Math: This week we will continue working on multi-digit numbers with a focus on subtraction. After we finish up with subtraction, we will review the chapter for 2 days and take our test on Friday 10/9/20.

Science: This week we will continue with our Life Science unit, and talking about how plants and animals get energy, with a quiz on Tuesday 10/6/20. We will begin lesson 3 about food chains and food webs on Wednesday.

Social Studies: We will be working in our studies weekly newspaper at week 6. Please make sure your child has week 5 ready on Monday. They will be learning about Natives of Florida.

Reading: This week we will continue to be reading skeletons, and looking at text features in informational texts. We will also be focusing on comparing and contrasting two different skeletons.

Writing: This week we will continue on writing informative and explanatory pieces. We will be starting to write essays weekly in class to get them prepared for the FSA.

Note from the Teacher

{EMERGENCY INFORMATION FORMS}

We are still missing emergency forms from some students. They were in a blue folder that was sent home the first day of school. Please remember to return them back to school.

Even if you are distance, we still need the forms return to school. If you need another copy, please let us know.

Reminders & Events

{IMPORTANT} Please begin packing a backup mask in your child's backpack in case something happens to their first mask.

Please pick up your child math textbook up at the front office for all distance learners. We will be using these daily!
